**Resource Management Plans****Bears Ears National Monument – Indian Creek and Shash Jáa Units****Grand Staircase Escalante National Monument – Grand Staircase, Kaiparowits, and Escalante Canyons  
Units and federal lands excluded from the unit boundaries****Initial Funding Requests**

Bears Ears National Monument was originally established by Proclamation 9558 of December 28, 2016. The original designation encompassed 1.35 million acres. On December 4, 2017, President Trump released Proclamation 9681 modifying the BENM. The remaining portions of the BENM are included in two units, known as the Indian Creek (71,896 acres of BLM-administered surface), and Shash Jáa (97,393 acres of BLM-administered land and 32,587 acres of National Forest System Lands) units of the monument.

GSENM was originally established by Proclamation 6920 of September 18, 1996. The original designation encompassed 1,878,465 acres. In 1998, H.R. 3910, the Automobile National Heritage Area Act (Public Law 105-355), resulted in a boundary change to 1,884,011 acres, a net gain of approximately 5,546 acres. The Utah Schools and Land Exchange Act of 1998 exchanged State/SITLA lands within the boundaries of GSENM. In 2009, H.R. 377, the Omnibus Public Land Management Act (Public Law 111-11), directed a boundary change and purchase for the Turnabout Ranch, resulting in the removal of approximately 25 acres from GSENM.

On December 4, 2017, President Trump released Proclamation 9682 modifying the Grand Staircase Escalante National Monument (GSENM). The modified boundaries of the GSENM exclude from designation and reservation approximately 861,974 acres of land; the remaining portions of the GSENM are included in three units, known as the Grand Staircase (209,993 acres of BLM-administered surface), Kaiparowits (551,034 acres of BLM-administered surface), and Escalante Canyons (242,836 acres of BLM-administered surface) units of the monument.
